MISCELLANEOUS	
The Builder has made an allowance for NBN provisions in this Authorised Tender. At the time of Tender preparation the Builder was unable to ascertain the Fibre Network provider for this property. It is the responsibility of the owner/s to notify the Builder of the network provider to enable the builder to install the correct requirements. `	No Cost
Due to the expansion of the National Broadband Network, clients have been informed that NBN Co. (National Broadband Network Company) will be providing fibre optics across Australia in future. In order to receive fibre optics to your home a minimum of 2 phone/data points, conduit from meter box to inside garage & conduit from communications pit to meter box is required so NBN Co. can connect fibre optics to your home in future. Client has been informed and wishes not to have any provisions (as listed above) for the future fibre optic roll out by NBN Co. Client will organize additional works in future to comply with NBN Co. Henley takes no responsibility for non compliance with NBN Co's future fibre optic roll out.	No Cost

Disclaimer

Prices effective from 30/08/2021 and subject to change without notice.

<p>Provide provisions for future NBN Co. Fibre optic requirements.</p> <p>Price Includes:</p> <ul style="list-style-type: none"> - 2 No. Phone/Data points. Locations to be confirmed, as noted on the electrical plan. - Underground conduit connected to a network provided starter pipe located within the property boundary (if available at time of construction) to meter box (maximum 20m from starter pipe to dwelling). - Internal Conduit from meterbox to inside of garage. - Double Power Point (Garage) <p>Note - Where no starter pipe is provided, conduit will be terminated at front boundary within the property. Owner/s are responsible to organize connection to the network with relevant Authorities after settlement.</p>	\$672
